The Struggle for Health in Europe

Thessaloniki, Greece
24 November – 1 December 2013

The People's Health Movement–Europe is hosting a short training course (IPHU) for health activists to learn, share and plan together to strengthen people's health movements around the globe. A main focus will be the current crisis, its consequences on health and healthcare, and ways to organize resistance and alternatives.

TRAINING

The IPHU faculty have diverse backgrounds and global expertise. Each faculty member brings experience from research, international and local activism and practice in public health to give participants unique perspectives and approaches for addressing health rights.

EXPERIENCE

IPHU is an intensive, residential experience using participatory learning methods. Participants take field trips into the local area to hear first-hand from health workers and community members. They share their own experiences in workshops, debates and group discussions. Participants live, work and grow together in solidarity with the global People's Health Movement.
